

Hana Microelectronics Co., Ltd (Jiaxing)

恒诺微电子(嘉兴)有限公司

Date : June 7, 2013

From : York Li - Sr HR Manager

RE: **EICC and GeSI**

Hana supports industry initiatives such as the Electronic Industry Citizenship Coalition ("EICC") and the Global e-Sustainability Initiative ("GeSI") Conflict-Free Smelter Program, which seeks to certify smelters and refiners that do not use conflict minerals that support armed groups in the production of tin, tantalum, tungsten and gold.

Hana strongly encourages its suppliers to support its efforts to avoid using conflict minerals that support armed groups and to cascade this goal through their supply chains. Based on the written assurances and declarations from our suppliers, we have no indication that Hana products contain any minerals from conflict mines, smelters or refineries in and around the conflict regions of the DRC. We will continue to collect additional information and perform due diligence.

If any further inquiries, please don't hesitate to let me know.
